

Question-3

Oct 3

Dejan

Q1: Post a discussion

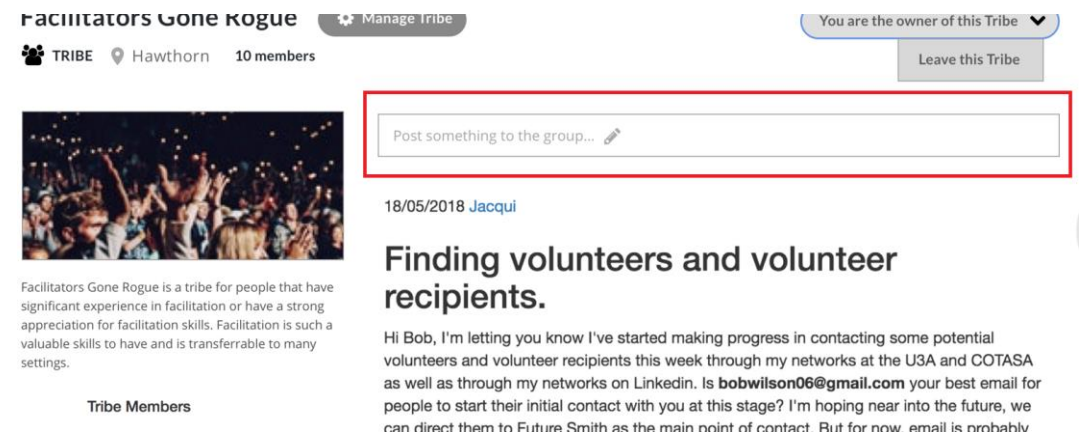

- 1-1: I don't understand how to post a discussion with this screen.

This screen has only one input text.

A discussion has title, content.

And we need a publish button for posting a discussion.

So can you explain how to create a discussion on this screen with only one input text?

The screenshot displays the 'Facilitators Gone Rogue' tribe page. At the top, there's a header with the tribe name, a 'Manage Tribe' button, and a dropdown menu indicating 'You are the owner of this Tribe'. Below the header, there's a section for the tribe's location 'Hawthorn' and '10 members'. A red box highlights the input field for posting a discussion, which contains the placeholder text 'Post something to the group...'. Below this, there's a post from 'Jacqui' dated '18/05/2018'. The post title is 'Finding volunteers and volunteer recipients.' and the content is a message about contacting potential volunteers and recipients through networks at the U3A and COTASA, mentioning an email address 'bobwilson06@gmail.com'.

Finding volunteers and volunteer recipients.

Hi Bob, I'm letting you know I've started making progress in contacting some potential volunteers and volunteer recipients this week through my networks at the U3A and COTASA as well as through my networks on LinkedIn. Is bobwilson06@gmail.com your best email for people to start their initial contact with you at this stage? I'm hoping near into the future, we can direct them to Future Smith as the main point of contact. But for now, email is probably
